BEAM®

IsatDock2 Series

IsatDock2 **LITE**
ISD2 LITE

Beam **IsatDock2 LITE** for Inmarsat's IsatPhone 2* allows for a semi-permanent installation, making the IsatPhone 2 'ready-to-go' and fully charged at all times. It is a versatile dock where easy access to standard voice and data services is required for land and maritime applications.

**IsatPhone 2 handset sold separately.*

data · sms · privacy (optional) · tracking

docking · charging · usb · sos

APPLICATIONS

IsatDock2 **PRO**
ISD2 PRO

Beam **IsatDock2 PRO** is an intelligent docking station for the IsatPhone 2* specifically designed to support accessing voice services via Bluetooth, POTS/RJ11 interface for corded/cordless phones or PABX, support for handsfree speakerphone or the privacy handset attached to the unit, making it ideal for fixed installations. The **IsatDock2 PRO** supports the Assistance Alert, Personal Alert and Tracking functionality of the IsatPhone 2 handset whilst docked.

**IsatPhone 2 handset sold separately.*

data · voice · pots/rj11 · pabx integration · speaker phone · handsfree · privacy

tracking · docking · charging · mute · usb/data access · personal alert

APPLICATIONS

IsatDock2 **DRIVE**
ISD2 DRIVE

Beam **IsatDock2 DRIVE** in-vehicle handsfree docking station, provides a high quality semi-permanent installation best suited for vehicular applications for the Inmarsat IsatPhone 2*. The docking station has in-built echo cancelling and full duplex technologies to provide superior voice quality and professional handsfree or privacy calls.

**IsatPhone 2 handset sold separately.*
