Emails, appointments and calendaring functions are part and parcel of daily communications for Microsoft Outlook and Lotus Notes users. Wouldn't it be perfect if you could also send those emails and notifications as SMS messages?

sendQuick Communications is designed just for that. With seamless integration to Microsoft Outlook or Lotus Notes, you can send emails, appointments and other notifications as SMS messages to any mobile phone, anytime and anywhere.

Built to function as a plug-and-play appliance, sendQuick Communications grow with your communication needs. Regardless of the number of users, or upgrades in your email clients, there is no need for constant software upgrades when you use sendQuick Communications.

SEAMLESS INTEGRATION TO MS OUTLOOK & LOTUS NOTES

You can send and receive SMS from MS Outlook or Lotus Notes natively (no plug-in required).You can receive tasks and appointments reminders and alerts via SMS. You just need to configure the notifications to be sent to your mobile phones. You can schedule the SMS using MS Outlook or Lotus Notes, allowing you to send SMS automatically at a later date and time. Furthermore, MS Outlook or Lotus Notes will send SMS to the address book (in the Global Address List) directly from the email client interface.

UNLIMITED END USER LICENSES

With sendQuick Communications, there is no need to purchase individual licenses for each and every new user. Just use your existing email client software without any additional software plug-in (for Outlook) or user license requirements.

INDIVIDUAL USER ACTIVATION AND CONTROL

Outlook users can be activated with user list from Active Directory (AD) or from a manually created user lists. Each user has their own individual user preference management profile, reducing the administrative needs of the administrator.

PLUG-AND-PLAY INTO YOUR NETWORK

Simplicity is a major factor when we begin to use a new device. It doesn't get any easier than this. Just get sendQuick Communications set up and you're good to go! Configuration is that simple and hassle free!

SEND SMS ANYTIME

As long as you have access to your email client, you can send SMS to your recipients. Whether you are in or out of your office, you can use your email client to send and receive SMS. sendQuick Communications has a web interface to send SMS, to complement Outlook and Lotus Notes.

2-WAY SMS MESSAGES

Now you can reply to the SMS and read the incoming SMS in your Inbox

24 x 7 x 365 OPERATIONS

Designed for heavy usage everyday, sendQuick Communications is the reliable workhorse that will ensure your day-to-day communications are in tip-top condition!

SERVER ADMINISTRATION

• One step integration to MS Outlook & Lotus Notes

• Single step user directory synchronisation with Active Directory
